THE BOGUS BUTTER BILL.

An Animated Discussion in the Senate Over

the Measure.

Mr. Ingalls in elucidating that question pro-

duced a vial of coloring matter and comment-

upon the circular accompanying it. The

Senate was told that it was intended to be man-

factured at Burlington, Vt. [Long story]

the expense of Mr. Edmunds. "This vial," he said, "was warranted by the firm which put it up, 'perfect butter color'—at Burlington, Vt.—for dairy purposes"—was warranted to color 300 pounds of winter butter. It had been pretended, he said, that the dairymen of Vermont and elsewhere were en- gaged in the manufacture of this butter, and that it was the most flagrant and unblushing that was ever introduced in congress. Having referred to the article of coloring, he asked an explanation of that and whether that was itself fraudulent.

Mr. Miller explained what the practice in that matter was, claiming that it was perfectly proper and innocent.

M'GEE'S METHODS.

HECRACKS THE MACON BARRACKS
THE SECOND TIME.Walks Out and Leaves His Officers—Mershon
Makes Up—A Terrible Chorus—Chancing Color
—Buggy Smashed by a Runaway Horse
News Notes—Personal Mention.

MACON, Ga., July 19.—[Special.]—Sometime ago Chis McGee, a young white man, got into trouble and was locked up in the city prison. During the day he bent some of the bars of his cell and came out. Nothing was heard of him for several days, but Saturday evening he was caught and locked up a second time, in company with young Sam Mershon.

Sunday the time hung heavy on their hands, and they began to study a plan to escape. They set to work on the bars over the cell door; the bars that he bent before being taken into custody are concerned. The new opera house building, by Messrs. F. T. Hardwick, David Bokofker and others, is in rapid process of construction and will add greatly to the business facilities of the city, as well as to the appearance of our business locality. This building, when finished, will cost about \$10,000, and will be the handsomest and most substantial building in the business center of Dalton. Several other new buildings are in process of erection. Prohibition prohibits in Dalton, and adds largely to her material prosperity.

A Revival in Dalton.

DALTON, Ga., July 19.—[Special.]—A very interesting revival of religion is being held at the Baptist church of this city, conducted by the pastor, Dr. Lofton. Large congregations are in attendance, and a deep interest is being awakened. Quite a number of Christians of all denominations are taking an active part, and the ministry is doing its best to assist in their operation.

Rev. J. B. Robbins, of the Methodist church, is a most liberal and earnest worker, and has delivered some most able and earnest discourses. Rev. W. H. Cooper, Baptist pastor at Cartersville, will be up this evening and preach every night during the week.

DALENTON Wants Public Schools.

DALTON, Ga., July 19.—[Special.]—Dalton is taking vigorous steps toward the establishment of public schools in her midst. An election has been ordered on the subject, and next Saturday, the 21st instant, the people will vote.

The prospect is a good one, and every one feels assured that the school question will carry without much opposition. It is considered a shame that a party of thirty-five hundred popularly elected school commissioners, and the negroes around were afraid of him, and never sought his arrest.

The editor of the Hampton Enterprise, who was sick, announces his reappearance this morning.

The fence question will be voted upon at the same time, and it is pretty clear that the "no fence" issue will be lost.

The Drought in Whited.

DALTON, Ga., July 19.—[Special.]—The drought has set in here, however, and it is now so dry that rain has not descended. The dry weather will ultimately finish the young corn.

The black was a far shallow to hit the jingler. The blood flowed freely, and in answer to his cuties parties came and conveyed him to the drug store, where Dr. Johnson dressed his wounds. Nixon surrendered this morning, and claims that another man named Johnson did the deed. The latter has not been found.

Changing Color.

MACON, Ga., July 19.—[Special.]—Frank Sanders was originally a negro of ginger cake color and is still a great lover of liquor. He is employed on Mr. Plant's swamp farm. Saturday night he got drunk and climbed Mr. O'Hara's fence. The old gentleman heard the noise, and going outside he found Frank in the weeds. He approached him, when Frank sprang up and caught him. O'Hara sent him to jail, and he was released for assistance, and his son came and they turned the negro over to the police. This morning he was brought before Judge Freeman, but the trial was postponed.

The negro's peculiar appearance attracted the notice of a CONSTITUTION reporter, who proceeded to interview him. The negro is twenty-eight years old and came here from Butts county, sixteen years ago. When he was a boy his skin began to change color, and now fully half his face, his forehead and around his mouth, is as white as anybody. The great black spots look like the stain of some dye. His head is kinky, his nose flat, and his full lips are truly like any other negro. The black has nearly left his hands, and the rest of his body. He appears nervous and excited, but is continually rubbing the black spots on his hands and face. He appears to be quite intelligent. He says he has no idea how the blackness disappears, but supposes that it gradually wears off. At any rate he is rapidly becoming a snow white, black-haired and black-eyed negro.

The Coming Season.

MACON, Ga., July 19.—[Special.]—The season at the Academy of Music promises to be unusually brilliant. Fewer companies will appear, but they are all first class, and the management hope to reap a richer harvest than ever before. Barlow & Wilson's minstrels will open the season on September 20, and for fair week there are companies booked for every evening.

The old favorites, like Milton Nobles, Annie Pixley, Janish and others are booked for dates, and in addition, several troupes new to Macon audiences. Among the latter are Mantel, Barry and Fay, Norman opera company, John C. Freund and the Strangers of Paris. The present outlook is very promising, and Macon people will realize a season of amusement never exceeded before.

Convicts Changing Base.

MACON, Ga., July 19.—[Special.]—Forty-two convicts, under control of James M. Smith, having finished the work on the Dublin and Tennille railroad, passed through tonight, bound for the Americas, Preston and Lumpkin extension. They waited here for fifty others coming in on the Georgia road.

The Buggy Was Torn Up.

MACON, Ga., July 19.—[Special.]—This evening at seven o'clock a horse ran away with a buggy in which Miss Rogers and Frank McCauley were driving along Mulberry street. Both fortunately escaped injury, but the buggy was torn up.

Bound Over.

MACON, Ga., July 19.—[Special.]—Polly Brown and Eliza Myrick got into a row yesterday. Jealousy was the cause. Today their complaints were heard by Judge Freeman who put them under a mutual bond to preserve the peace.

Sunday's Sins Expiated.

MACON, Ga., July 19.—[Special.]—Dick Murray, the man whom Officer Dan Thomas had been born, Saturday night, was fined \$25 or six days in the penitentiary.

Perryman got \$10, and his chum, John Sanford, \$30 for the row with Officer Hutchins, Saturday night.

Smaller sinners were fined from \$2.50 to \$5 for minor offenses before the recorder today.

Spicy Specials.

MACON, Ga., July 19.—[Special.]—Yesterday the umbrella sunshade of THE CONSTITUTION headquarters and carried off three umbrellas. It was only worth seven dollars each, but the damage was done.

Perryman got \$10, and his chum, John Sanford, \$30 for the row with Officer Hutchins, Saturday night.

Smaller sinners were fined from \$2.50 to \$5 for minor offenses before the recorder today.

An Unknown Man Found Dying.

WACROSS, Ga., July 19.—[Special.]—An unknown white man, giving his name George W. Price, was found, today, in a dying condition, in a house in the city of Waco, Texas. He was carried to a house near and died a few hours. Nothing could be learned from him as to who he was, or his business. He looked like a respectable man. He was buried at the expense of the county.

Bishop Becker's Return.

SAVANNAH, Ga., July 19.—[Special.]—Bishop Becker, of Savannah, and Bishop Moore, of St. Augustine, returned Saturday from the north. Bishop Moore left for Florida to-day. Bishop Becker will visit Atlanta in a few days.

To Neutralize Offensiveness.

There is a colored church in the heart of the city, where they keep the neighborhood babies all awake Sunday night by their fervent prayers and hilarious songs. The din is fearful.

Saturday's frolics rather revived the waning interest in the Macon baseball game.

Personal Paragraphs.

MACON, Ga., July 19.—[Special.]—Merrill

Frank Turpin, Lew Gogel and Ike Festan have returned from a tour of the north.

Hon. J. H. Fellhill, chairman state democratic executive committee, passed through the city today en route to Columbus. He gave a talk at the grand lodges of Good Templars.

Mrs. E. C. Corlett left for Columbus today.

Dr. T. A. Cheatham and family left for a few days to New York today.

Mrs. Jeff Johnson and Mrs. N. B. Johnson left for a visit to relatives in Abbeville, Ala., today.

Hon. Seaborn Rees was in the city today.

Mrs. Jessie L. Morris and her husband went to the city, returned to her home in Americus today.

HOME ENTERPRISE IN DALTON.

The New Opera House Which is to Furnish Amusement.

DALTON, Ga., July 19.—[Special.]—Dalton is looking up at present, so far as home enterprise is concerned. The new opera house building, by Messrs. F. T. Hardwick, David Bokofker and others, is in rapid process of construction and will add greatly to the business facilities of the city, as well as to the appearance of our business locality. This building, when finished, will cost about \$10,000, and will be the handsomest and most substantial building in the business center of Dalton. Several other new buildings are in process of erection. Prohibition prohibits in Dalton, and adds largely to her material prosperity.

SOUTHERN RAILROADS.

OUTLOOK FOR THE CONSTRUCTION OF NEW LINES.

Great Activity in Railroad Construction in All the Southern States—List of New Lines and Extensions of Old Lines—Georgia Not Lagging Behind, But Keeping Right Up.

From the Manufacturers' Record.

There was probably never before in the history of the south a more promising outlook than at present for a large amount of railroad building. In nearly every state from Virginia to Texas there is not only already very much activity in the construction of new roads, but plans have been matured for the early commencement of work upon many others, while the preliminary arrangements are being made for many more. Of these roads either under construction or on which work will shortly be commenced, quite a number are very extensive undertakings, destined to have an important influence upon the future of the south. In Virginia and West Virginia some important lines to open up magnificent mineral resources are under way, and there are also quite a number of short branch and connecting roads being built to develop coal and iron territory. The extension of the Norfolk and Western's Cripple Creek branch will bring into prominent region of unsurpassed mineral wealth, where vast quantities of valuable ores are found in abundance. Two other very promising projects for building roads from Roanoke down through a rich portion of Virginia, the Piedmont section of Carolina, and possibly to Atlanta; and one from Roanoke through Craig county, where minerals are in vast abundance—is in a fair way of being carried through successfully.

The Richmond and Chesapeake railroad company has commenced work on a road from Richmond to North Carolina country, where the terminus will be on the bay, so as to give a shorter access to the coast, with a transfer across to connect at Griswold, Md., with roads running to Philadelphia and New York. From Claremont, on the James river, a road is being built to Danville. In North Carolina the Cape Fear and Yadkin Valley is being extended; the Carolina Central is pushing forward vigorously for Rutherfordton, while the Atlantic and Western Southern construction company is paralleling this road for a short distance and extending on in the direction of Charleston, and promising to extend their other end toward the west. The Richmond and Danville have decided to extend their road so as to reach Knoxville, bringing Asheville and Knoxville into direct connection and opening up one of the finest sections of the whole country; the same road is building westward to Macon, where connections will be made via the roads of the Marietta and North Georgia to the far south. South Carolina has some important roads under way, especially of narrow-gauge lines. Georgia is building the Georgia Midland, the Macon and Covington, the Savannah, Dublin and Western, and preparing to build from Augusta to Chattanooga and from Columbus to Birmingham. In Alabama all major enterprises are pointing to the great coal and iron fields. The Georgia Pacific, from Birmingham to Columbus, Miss., is under way; work on the road to connect Birmingham and Kansas City is being hurried along; the Montgomery Southern is under construction towards Florida, while other projects almost too numerous to mention are either now under way or else getting into good shape for construction work.

Railroad Building in 1886.

The reports of railroad building in the different states show an increase over the same period in 1884 and 1885. For the first six months of the present year 1,850 miles were built. In 1884 the number was 1,416, and in 1885 it was 1,119. It is believed that the figures for 1886 will show that it had not been for the labor trouble. These checked many new railroad enterprises.

HEADLIGHT FLASHES.

Messrs. Jones & Vincent, the contractors, are rapidly pushing the work on the new depots of the East Tennessee, Virginia and Georgia railroad in this city and at Atlanta.

On the 21st instant the East Tennessee, Virginia and Georgia railroad will run a populaire excursion from Rome to Powder Springs.

Mr. B. W. Wrenn, general passenger and ticket agent of the East Tennessee, Virginia and Georgia railroad, left New York yesterday.

His family accompanied him.

On Sunday last the East Tennessee, Virginia and Georgia railroad sold fifty tickets from Macon to Indian Spring, and one hundred from Atlanta to Indian Spring, Austell, Powder Springs and Lake Lanier. Sunday excursions are becoming very popular.

Commencing September 1st the Southern Pacific railroad will run Pullman's sleeping cars from Atlanta through to San Francisco. The change facilitates the transfer of cars across the Mississippi, and a considerable delay heretofore encountered is now obviated.

Travel from Atlanta is at all points of the compass. For instance, yesterday Mr. Jack Johnson, agent for the East Tennessee, Georgia and Georgia railroad, sold nine tickets to Boston, one to Key West, one to Washington, one to Morrisania, one to New York, one to Albany, one to Auburn, four to Blue Ridge, spring, and return two to Thomasville, one to Asheville, one to Huntsville, one to Gainesville, Fla., and four to New York.

THE CONSTITUTION,

Atlanta, Ga.

ATLANTA, GA., JULY 20, 1886.

Indications for Atlanta and Georgia, taken at 1 o'clock a.m.

Blue: Fair weather, except on the coast local rains and stationary temperature. Virginia: Fair weather, stationary temperature, variable winds, generally westerly. North Carolina, South Carolina, Georgia, eastern Florida: Fair weather, stationary temperature; variable winds.

PUTNAM county has raised thirty thousand dollars to build the railroad from Eatonton to Monticello. Now, what does Jasper propose to do? This is a very pressing matter.

The public school idea is spreading throughout the state. In Dalton the establishment of public schools is now being agitated with strong prospects of success. The election will take place on the 24th of the present month.

One of the most uncertain congressional canvases in Georgia has been that in the fourth district. The district convention meets today in LaGrange, where the candidates will probably find out something as to how they stand.

The primary election, which will be held today for the selection of congressional delegates, should be taken part in by every democrat in the county. No registration is required; all that is asked is that the voter should be a citizen of Fulton county and a democrat.

The steamship Gate City, of the Savannah-Boston line, when near Martha's Vineyard, ran into a fog bank Sunday afternoon, and it is feared will prove a total loss. The vessel had fifty-two passengers aboard—mostly excursionists. All were saved.

Major W. S. Basinger, late of Savannah, has been elected president of the north Georgia agricultural college in Dahlonega. The university trustees could not have made a better selection. Major Basinger accepts the place with the distinct understanding that it is not to interfere with his practice of the law.

One of the most progressive cities in the state is Rome. There is a vim and an energy in the citizens of the city which makes the progressive spirit of the place apparent. Elsewhere will be found an account of some of the works now under way. It is the purpose of the Romans to make the period after the flood a notable one.

Cotton Facts.

The figures given by the New York Financial Chronicle show for the week ending last Friday night total receipts amounting to 9,471 bales against 12,964 bales the week before, 13,510 bales the previous week, and 14,363 bales three weeks since, making the total receipts since the first of September, 1885, 5,282,868 bales against 4,719,131 bales for the same period of 1884-85, showing an increase since September 1, 1885, of 563,737 bales.

The week's exports reach a total of 36,069 bales, of which 27,063 went to Great Britain, 1,524 to France, and 7,482 to other parts of the continent.

The total sales for forward delivery for the week were 459,600 bales. For immediate delivery the total sales for the week foot up 7,365 bales, including 2,825 for export and 4,480 for consumption.

Old interior stocks have decreased during the week 7,797 bales, and Friday night were 40,414 bales more than at the same period last year. The receipts at the same towns have been 3,207 bales more than the same week last year, and since September 1 the receipts at all the towns were 724,017 bales more than for the same time in 1884-85.

From the plantations it appears that the total receipts since September 1, 1885, are 5,335,245 bales, against 4,725,507 bales in 1884-85, and 4,777,772 bales in 1883-84. Although the receipts at the outports last week were 9,471 bales, the actual movement from the plantations was only thirty-seven bales, the balance being taken from the stocks at interior towns. From the same plantations last year the figures of the receipts are not given for the week, but in 1884 they were 113 bales.

The total cotton in sight, July 16, is 6,451,803 bales against 5,592,073 for 1884-85, 5,643,377 for 1883-84, and 6,928,646 for 1882-83. The increase is 859,730 bales as compared with last year, and 805,426 bales compared with 1883-84, and the decrease from 1882-83 is 476,823 bales.

Intemperance in the North.

There is a reason for the bitterness of the northern prohibition crusaders. We have intemperance in the south, but it is mild and sporadic. In the north it has grown since the war into a monster evil. It permeates all classes of society, especially in the cities and towns.

Joe Howard, the veteran New York correspondent, pictures the metropolis as the wettest place on earth. According to his statements the average New Yorker begins the morning with a cocktail. He takes snuff before lunch time, and then drinks a milky punch or two. During the afternoon one or more brandy smashes are in order. At dinner the champagne comes in, and before bed time something stronger is called for.

Now, all this occurs among moderate drinkers. But there are men who are not satisfied with this programme. Howard speaks of the late millionaire, Tracy, the former husband of Agnes Ethel, the actress. Tracy, it seems, drank a quart of champagne before breakfast. At night he

swigged a quart of brandy. How he worried through the day, or what he drank between times, is not stated. Of course his habits killed him.

But these smart men about town do not all drink liquor. Some of them never touch a drop. They burn out their stomachs with acid phosphate half a dozen times a day. They drink Moxie. They swallow bitters and patent medicines. They dose themselves with quinine and other things. Some drink ice water twenty times a day, a practice about as injurious as half the number of toddies would be. There is something in the life of our eastern cities that throws men's systems into a disordered condition, and they crave stimulants or narcotics. While this is the case, the northern people still regard the south as the temperate section, and they point to the prohibition excitement down this way as positive proof that the evil has reached a point where forbearance ceases to be a virtue. It would surprise them to learn that in every part of the south drinking has steadily decreased during the past twenty years. Public opinion is at the bottom of this reform, and it has accomplished as much outside of the local option districts as it has in them. Public opinion is itself a law, and it cannot be defied successfully.

Why Not Drop Facts?

There was an interesting discussion the other day at the Deerfield, Mass., school of history and romance. A Boston lady read an essay on "The Value of Historical Fiction." She defended historical myths, and argued that if such a paradox could be paralleled they were really more true than many absolute facts. Such myths as the story of Quintus Curtius, King Arthur, and Jean of Arc were the world better and braver Dickens's "Tale of Two Cities" give a better picture of certain phases of the French revolution than can be found in any history.

One of the gentlemen engaged in the discussion was evidently on the Grindgrind order. He took the floor and said: "If it is so important, and so full of truth why not drop facts altogether?" Such a question has an odd look when it is in cold type, but it is decidedly pertinent. The world has already made considerable progress in this matter of getting rid of facts. When we are not idealistic we are euphemistic. We even try to paint the lily and gild refined gold. We have borrowed the rhetoric of the auctioneer and the real estate agent. We see everything through the spectacles of either optimism or pessimism, and speak accordingly. Some few may still be wandering about in this vale of tears, but they are tricked out in such a fantastic garb that it is difficult to recognize them. If we should meet a naked fact in the road, the probability is that we would brand it as a lie and go on about our business. In this refined age, facts must be dressed up or they will be dropped in a hurry.

The Credit of the South.

Messrs. Bruce & Cook, importers of metals in New York, did a large business in the south before the war. In a casual conversation with Mr. Robert H. Martin, formerly of South Carolina, now in business in New York, Mr. Cook, of this firm, told Mr. Martin how the southern people rallied after the war, and paid their debts. Mr. Martin, who is always watchful of the south's interests, says many of the thousands of southern men in New York are asked him to make the statement in writing, that he might have the benefit of it for our people. Mr. Martin sends us the letter which follows:

New York, July 15, 1886.—Mr. J. H. Martin, Dear Sir—In answer to your request I here repeat the statement made to you at the lunch table.

In beginning of our civil war, at closing of mail sailing, we had a large amount of gold and dollars owing to us from friends south, all of which we considered lost. After the close of the war, we had a sum nearly forty thousand dollars of this amount was paid to us by our debtors; a result so satisfactory to us, and so honorable to them and the section of country from which they come, that I am about to speak of it. Respectfully yours, JOHN C. COOK.

Dime Novels and Murder.

A good old preacher said in our hearing the other day: "Our boys are tempted into evil ways by what they read."

It looks very much like it. A trial now in progress at Erie, Kansas, shows the intimate connection between dime novels and crime. One morning Willie Sells, a sixteen-year-old boy, went to a neighbor's house and excitedly stated that a strange man had broken into his home and killed his father.

The neighbor went to the house, and saw a horrible spectacle. The newspaper account says:

Ison hearing this story Mr. Mandell accompanied Willie home. When they arrived the boy remained outside. Mr. Mandell entered, procured a light, and was confronted with the most horrible spectacle that can be imagined. The floor was covered with blood, in which his father had to be buried. The old man's body was lying on the floor with the whole back of his head crushed in and his throat so deep that his head was almost severed from his body. Near him, also on the floor, was the body of Mrs. Sells, with her skull crushed and her throat cut in the same manner. A few feet away, in a bed, in a corner, lay the body of Willie Sells with his skull crushed and his throat cut in the same manner. He was sleeping in the same bed in which Willie had been sleeping was the body of Willie Sells, with a large gash in his forehead, one of his eyes chopped out and his throat cut similar to the others.

A hatchet and butcher knife covered with blood were found in the house, and in the kitchen there was a basin of bloody water in which the murderer had washed his hands. It was discovered that Willie had washed his hands, but above his wrists blood was found on his arms. There was blood under his finger nails and his underclothing was stained. The boy told several contradictory stories about the affair, and there was nothing to do but to lock him up. He will doubtless be convicted, although he stoutly asserts his innocence.

Willie Sells has never been considered vicious. He has always been an inveterate reader of dime novels of the worst class, and has frequently expressed his desire to become a frontier hero; a "Wild Bill," "Slippery Sam" or something of the sort. Those who know him are satisfied that his murderous craze is due entirely to the reading of blood and thunder literature. If this case does not set some of our parents to thinking, it will be because their intellects are too weak to bear the strain.

EDWARD C. Z. JUDSON, who made a great deal of money writing stories under the pen name of "Ned Buntline," died in Stamford, N. Y., on the 17th. He was sixty-four years of age. His early life was spent in the navy. He entered the government service at the age of twelve as an apprentice on board a man-of-war. A year later President Van Buren sent him a commission as midshipman for merito-

rious conduct in rescuing the crew of a boat run down by a Fulton ferry boat on East river. Young Judson was assigned to the Levant. Other midshipmen refused to meet with him because he had been a common sailor before the mast, and while on the way to join the Gulf squadron, he challenged thirteen of them to fight. Some withdrew their refusal and associated with him, but he fought seven of them one after another, in Florida, New Orleans and Havana, escaping without a scratch himself, but marking four of his antagonists for life. From that time on, his reputation as one of the best shot in the United States was established. His first story, "The Captain's Pig," was published in the Knickerbocker Magazine under the name of Ned Bunting in 1838, when, in his fifteenth year. This sketch brought notoriety to the young writer and fighter, who subsequently received as high as \$80,000 a year for the product of his brain and pen. He probably thought he had a particular right to turn out sensational stories. He passed through many stirring adventures, and his body was covered with wounds. He had in his right knee a bullet received in battle, and had twelve other wounds inflicted by sword, shell and gun, seven of which were got in battle. He was not educated for the army and navy. The title of colonel came to him as chief of scouts in the late civil war.

satisfactory evidence to that effect, and it was buried in Foster's field in a child's coffin.

BARON RAYMOND DE BRILLIERS, who is now residing in the United States, has recently, at the request of his family, been placed under judicial control, having run through his own fortune and contracted debts to the tune of \$100,000.

He is said to have however been legally prohibited from incurring any further liability.

KIRKES admits of a greater variety of character than perhaps many are aware of. Eight labial diversities are mentioned in the Bible—the kiss of salutation, valediction, reconciliation, subscription, approbation, adoration, treachery and affection.

AT a fancy dress ball given by the British legation, St. John, in the City of Mexico recently, the wife of President Diaz was a richly embroidered with gold and carried a golden arrow. Her head-dress was of ostrich plumes and she was decked out in diamonds.

A lot of young Baltimoreans were the "cheesnut protector gone" at a recent performance of the "Mikado," and the puns and gags that were interpolated were met with a steady ringing of the little bells. The effect was excellent, and the next night the players stuck to the text of the opera more closely. The chestnut gong seems to be a blessing in disguise.

A SINGULARLY beautiful relic of the food industry is the crop of dill-seed that is sown through the bottom lands of Kansas. Some sections are dotted thickly with these flowers, and as they were never known to grow before, it seems that the seeds were brought down by the wind.

ROSE LESLIE, whose immense size made her famous as a circus attraction, has died in Lowell, Mass., aged twenty-five years. She weighed 615 pounds, and measured five feet three inches in height.

ALICE LONGFELLOW, a daughter of the poet, is having a happy time at the Bavarian capital, listening to Wagnerian music.

MR. SCHMIDT, said a German gentleman, who is an engineer at Pittsburgh, Pennsylvania, "Mr. Schneider," was the burlesque, "Great heavens!"

"Schmidt," was the reply. "Well, some folks think of me as Schmidt," said Mr. Schneider. "Because of my name, I am often called Schmidt, and I am not the only one to be so called. You don't hear of Schmidt in Germany, but in America, Schmidt is a name that is well known."

"Why do you account for that?"

"Because the circuit judge made twenty-seven grand juries let out twenty-eight men, and eighty-eight to the grand jury."

AN OLD citizen of this county, who was justice of the peace in the town above, said to me the other day, "If he had made a success as a law officer." "Well, some folks think I didn't," he replied. "For what reason?"

"Because of my name, Schmidt," said Mr. Schmidt. "I am Schmidt, and I am not the only one to be so called. You don't hear of Schmidt in Germany, but in America, Schmidt is a name that is well known."

ANOTHER remarkable thing as to her growth is the fact that she was born in Germany, and grew to a height of six feet, two inches, in a short time.

AMONG the Georgians here we find our tried friend Captain R. A. Bacon, gallant bald Daniel of the "Confederacy," and his wife, Mrs. Bacon.

WORLD'S FAIR.—The Atlantic is the seat of the east and the "gate city" to Texas, Mexico, and California.

TENNESSEE.—The Tennessee manufacturing company of the same name is a great institution, especially those engaged at the Tennessee manufacturing company.

TRUSTEES' SALE.

Property of the Columbus Manufacturing Company.

Completely and fully equipped cotton factory, together with nearly a mile of the finest power on the Chattahoochee river, just above the city of Columbus.

STATE OF GEORGIA, MUSCOWEE COUNTY—By virtue of the power in me vested by the laws of this state, I do hereby order and command a certain sum of money to be paid over to the trustees of the said corporation, and thereafter described. In trust to secure the payment of the debts and expenses of the corporation, and of its assets thereto as in said trust deed specified and enumerated which of any amount shall be recorded in Mortgage Deed Book "A," Section 367 to 373, and in the record office of the County Clerk of Muscogee county, Georgia, and in Record Deeds, volume O, pages 8 to 88 inclusive, March 22, 1884, office of the Clerk of Court, Columbus, Georgia, and in conformity with the directions and terms prescribed in the resolutions passed by the holders of said bonds, on April 24, 1884, under the laws of Georgia.

We will sell in the city Columbus, Muscogee county, Georgia, on the 3d day of August, 1886, between the hours of 10 A.M. and 1 P.M. at the office of F. M. K. Morris, Jr., on the Northwest corner of Broad street and Tenth (formerly Crawford street), (being the usual place for sheriff's sales) in the City of Columbus, Georgia, the highest bids for cash, the following described property of the Columbus manufacturing company, to wit: All those lots and parcels of land situated in the City of Columbus, Georgia, having section number twenty-six (26) and the north half of fractional section number thirty-five (35), both in fractional township number eighteen (18), range number one, in the county of Muscogee, State of Georgia, and in conformity with the directions and terms prescribed in the resolutions passed by the holders of said bonds, on April 24, 1884, under the laws of Georgia.

The plant of said cotton factory consists at present of two cotton gins, other suitable machinery, all in good condition and producing good work. Present capacity 7,500 yards a day of heavy sheetings and shirtings, three yards to the dozen.

The operatives' houses and improvements generally in excellent condition, labor abundant, land cleared and fenced, and all required for health, convenience and economical production—free from the burden of manorial taxes paid by all the other Columbus mills, yet within three miles of the city, and near the junction of a main of Columbus and Rome railroad. The water power is the finest in the south, controlling and embracing the whole bed of the Chattahoochee river, and the head of navigation above the lands of the company, said lands extending along the banks upon the Georgia and Alabama sides of the river, only a small portion of the same being retained by us in the present mill and the natural falls in the river render a simple inexpensive dam of logs and plank necessary. This has a fall of two feet and a half (42) feet, within three-quarters (3/4) of a mile. With a comparatively small expenditure upon a new dam, 12,000 cubic feet of water can be obtained, and spindles with looms in proportion can be driven by this water power. Capital for the erection of additional mills and utilization of the power now available is invited. Full and satisfactory details will be furnished on application.

THE SEVENTH AND THE FORTY-SECOND.
The programmes for the reunions of the Seventy-eighth and Forty-Second Georgia regiments have not yet been fully prepared. The executive committee of the Forty-Second will have a meeting this afternoon. Both programs will be announced in tomorrow's Constitution.

GOING HOME FOR BURIAL.—The remains of Mrs. G. W. Berge, of Clarkston, Georgia, passed through Atlanta yesterday en route home. Mrs. Berge died Saturday afternoon at Warm Springs, North Carolina, where she had been several weeks in quest of health. Her remains were accompanied by her husband and little daughter of six years.

THEY ARE DOING WELL.—Alf Moore and Mr. Fox, two men who were seriously hurt in the falling building near the Chase Valley oil house last week, are improving rapidly. The colored man, still suffering, is at times unable to sleep, but his physician feels satisfied that he will pull through all right. Mr. Fox is mend rapidly, and was able to sit up awhile yesterday.

INJURY TO PROFESSOR C. M. NEAL.—Sunday evening at Edgewood, Professor C. M. Neal, the victim of an accident, which caused a severe sprain to his left ankle. He and Captain Lyman Hall, the new commanding officer of cadets at Moreland park military academy, started to the city in a buggy. The horse ran away and both were thrown out. Captain Hall escaped unharmed.

NO SYMPTOMS YET.—Timmie Jackson, the little negro girl who was bitten by a dog on Marietta street last Thursday afternoon, is doing very well. The inflammation and swelling in her cheek have nearly disappeared. The many rumors of mad dogs have caused the parents of the child and the physician to be very attentive and watchful, but no indications of hydrophobia have manifested so far.

BITTEN BY A DOG.—Considerable excitement was caused on Whitehall street, near Hunter street, yesterday by a spirited but very short encounter between a dray mule and a dog. The dog, a large, vicious looking one, was walking up the street, and finding the mule was not afraid of him, struck the mule in the head, and the mule struck back with his fore foot to defend himself, and struck the dog a terrible blow with it. This ended the engagement, and as the dog trotted away, a thousand persons declared that a mule had bitten him by a mad dog.

A HARD FALL.—Jerry Dorgan, a hod carrier, fell fifteen feet yesterday afternoon with a hod on his shoulder, and escaped being hurt. Jerry was working at Mr. Ficken's new building on Peters street, and with a hod on his shoulder was ascending the incline when a foot rest broke. This caused Dorgan to slip and in trying to recover himself he went off the incline. In falling he clung to his hod which struck the ground with him. Everybody present thought that Dorgan had been seriously hurt, but were surprised to see him spring to his feet, pick up his hod and start back to the incline. Dorgan was not even scratched by his fall.

AT THE THIRD PRESBYTERIAN CHURCH.—The Fulton county Sunday school association met Sunday afternoon at the Third Presbyterian church. The session was a most delightful one. Mr. John M. Green, the president occupied the chair. He was assisted by the children of the Third Presbyterian school. The Third Baptist and Payne's chapel schools were also present, but failed to put in an appearance. Several addresses were made by members of the association. Mr. Thomas Bruce Johnson, Jacob Harvey and Smith spoke on the general work of the schools. Mr. Hemphill spoke to the children, and Mr. Akin to the teachers. All remarks were full of interest, and much pleasure. The singing was under direction of Rev. N. Keff Smith, and was done by the children of the Third Presbyterian school.

The Third Baptist and Payne's chapel schools were also present, but failed to put in an appearance. Several addresses were made by members of the association. Mr. Thomas Bruce Johnson, Jacob Harvey and Smith spoke on the general work of the schools. Mr. Hemphill spoke to the children, and Mr. Akin to the teachers. All remarks were full of interest, and much pleasure. The singing was under direction of Rev. N. Keff Smith, and was done by the children of the Third Presbyterian school.

The clerk notified the council that the board of aldermen had disagreed with their action in the matter of the street.

The board of aldermen, and the chair appointed Messrs. E. C. May, and Roy from the council, and Messrs. Collier and Granning from the board of aldermen.

The balance sheet showed \$24,858 as the balance of the annual apportionment.

The proposition of F. B. Jones to renumber the houses was rejected.

The salary committee recommended that Dr. Van Godisian, the ward physician for the first ward, be paid \$10 per month extra for the services of prisoners and others at police headquarters. The recommendation was agreed to.

The committee on contested claims recommended that Francis Fontaine be paid \$20 in full for damage to his place on West Peachtree street.

Mr. Bell introduced a resolution instructing Jacob Morris, janitor and messenger, to appropriate a room in the city hall to his own use, and requiring him to sleep in it. The resolution was adopted.

Mr. May introduced a resolution changing the hour of meeting from three to four o'clock p.m.

"I'm opposed to that," said Mr. Beatie, "as it is, we can get through in time to go out and hear speeches. At four o'clock we couldn't. I want to hear Mynatt tonight."

The resolution was withdrawn.

The finance committee of audited accounts was agreed to.

PAVEMENT PARAGRAPHS.—

The work at DeGivie's opera house goes on. The Atlanta Gun club has been reorganized and will waste powder in the rear of the baseball field.

The infant daughter of Mr. and Mrs. T. A. Johnson was buried in Oakwood yesterday afternoon.

E. R. Snell and family, of London, England, arrived in Atlanta yesterday, and will make Georgia their home.

Quite a crowd of Good Templars went to the state lodge.

QUARTERLY MEETING OF Y. M. C. A. MEMBERS AT 5 P.M.

SURVIVORS OF SEVENTH GEORGIA REUNION AT COURTHOUSE AT 10 A.M.

THROUGH THE CITY.

NOTICE PARAGRAPH. Caught On the Fly by The Constitution Reporters.

HOME MISSIONS.—Rev. J. N. Craig, secretary of the Presbyterian Home mission board, will reach Atlanta about the 23d or 24th, and will have the rooms of the board over Chapman, Johnson & Co.'s store.

HE WAS HUNG UP.—Sunday last, Mr. Will Thomas started out on his bicycle to Griffin. At Jonesboro he ran into a dog, pinning him a "header" and badly bruising him, besides breaking his bicycle. He picked up his machine and went on to Griffin.

Colonel Johnston's LECTURE.—The lecture and reading by Colonel Richard Malcolm Johnston will be a rich treat. The colored audience at West End was charmed by his expression. Colonel Johnston should have a large audience of Atlanta people to hear him in effect July 1st, 1886.

REMARKABLE PROGRESS.—The late annual meeting of the Gate City Loan and Building association was presented with a report showing remarkable progress. In two years each member has earned a profit of \$475. This makes the value of each share, upon which \$24 has been paid, \$275.

THE SEVENTH AND THE FORTY-SECOND.—The programmes for the reunions of the Seventy-eighth and Forty-Second Georgia regiments have not yet been fully prepared. The executive committee of the Forty-Second will have a meeting this afternoon. Both programs will be announced in tomorrow's Constitution.

THE GENERAL COUNCIL.

THE BODY MEETS IN REGULAR MONTHLY SESSION.

The Mayor Makes a Reference to the Annual Apportionment.—The Bell Telephone and the Service in the City—an Omission to Put Nation Blocks on Crew Street.

"I desire again to call the attention of the general council to the condition of the city treasury or rather apportionments," said Mayor Hilliard, just before the body adjourned yesterday afternoon.

There was no response by any one present, to the remark.

"The apportionment to sanitary department," continued the mayor when he saw that there was no probability of a reply, "has been exhausted and the sewer fund has about disappeared. Several of the departments have been overdrawn."

"I move we adjourn," said Mr. Beatie, in response to the last remark.

"I have here," said Mr

A Girl Runs a Blind Tiger.

Lucy McCall, a sixteen-year-old girl, will be arraigned in police court this morning and charged with violating the prohibition law. The girl is charged with running a first class full fledged blind tiger. She lives with her parents on Highland avenue and the Boulevard. Several days ago, a young man named Saider, got into a difficulty at a party and drew a pistol. For this a warrant was taken for him, charging him with carrying concealed weapons. The boy's father undertook to adjust the case, and in his work it leaked out that young Saider had been drinking. It also developed that Saider and several other boys had been purchasing liquor from a girl named Lucy McCall. The case was placed in the hands of Patrolmen Moss and Lynch. They secured the names of several witnesses, who say that they have been to the girl's mother's house, and that her husband gave the girl tea and biscuits and that she would have the room and supplies in a few "w" with the liquor. The patrolmen, in the girl's home and found several bottles in which there were small quantities of liquor. The collection represented corn liquor, peach brandy, rye and wine. The girl's mother said that her husband had been buying a quart of liquor every Saturday. She said that the bottles and their contents accumulated in that way. The girl admitted that she had furnished some of the boy's liquor on one occasion, but claimed that they gave her the money first and that she sent her brother down town and bought a quart. She was locked up. The witnesses against her are Charles Duggar, Bowell Johnson, Ed Saider, Green Daniel and W. H. Carter.

They all Got Into Trouble.

Georgia Wright, a saffron hued damsel of eighteen, called at police headquarters yesterday and exhibiting a scar or two, stated that Emma Cross and her mother, two negro women, had given her a terrible beating which caused the scars. She then asked that both women be arrested. Mounted Officers Harris and Aldridge visited the Cross home but found Emma Cross, only, as her mother was out of town. They arrested the girl, but while a round of police officers surrounded her, the officers' adjutant, George Wright, had stolen some wearing apparel and that she had known of the theft. At police headquarters the officers found Georgia Wright and repeated Emma Cross' accusation. The girl denied the truth of the statement but the master was finally disposed of by locking them both up until the charges could be carefully investigated.

Another Case of Like Character.

The Headlight restaurant, through S. A. Gamble, is charged with getting rid of liquor and beer after the manner of Tobe Jackson, the alleged Carterville dynamiter. Since the saloons closed crowds have been congregating about the front of the Headlight. These crowds finally attracted the attention of the police and an officer was detailed to "look after" the matter. For several days the officer watched the place, and on yesterday reported the matter to the chief. After reading the chief's statement the chief referred to the master, Captain James G. Chisholm, and had Captain James called at the restaurant and arrested Gamble. He was booked for violating the prohibition law, and was released on a \$200 bond.

He Proved to be a Convict.

Before day yesterday morning, Patrolman Hiteon observed a negro man loosing about the corner of Whitehall and Mitchell street. The darky was evidently anxious to avoid being seen, so the consequence the patrolman took him closely. The watch did not go long, however, as the darky detected the patrolman and started to walk away. This caused the patrolman to decide at once, and overtaking the negro, arrested him. At police headquarters the negro was recognized as Henry Green, a convict who escaped from the Fulton county jailhang about two months ago. Green was booked as a convict, and will be turned over to Superintendent Donaldson today.

For Hitting Her With a Stick.

Jennie Miller, a colored girl about eighteen years of age, yesterday appeared at police headquarters, and stating that Bob Bradford, a negro man, had knocked her on the head with a stick, requested his arrest. The girl was instructed to swear out a warrant for Bradford, and in a short time returned to police headquarters with the paper. The warrant charged Bradford with assault with intent to murder, and during the afternoon Bradford was arrested. Bradford says that he has not seen the girl for four months, and that the kick he accuses him of striking was given in fun at a party one night about six months ago.

All Democrats, whether registered or not, can vote for Hammond. No apathy should prevail.

A Former Representative.

It was stated on the street yesterday that Captain J. M. Lidel, a resident of Peachtree district, would make the race for the legislature.

"Red Lion" Elixir is 25¢, 50¢ and \$1 a bottle.

BREAKING THE LAW,
AND GETTING INTO TROUBLE BY
DOING SO.

The Blind Tigers Show Up, and are Pulled - A Negro Girl Charged with Selling Liquor and Violating the Prohibition Law - Two Escaped Convicts are Taken In, Etc., Etc.

The Atlanta blind tigers are beginning to develop, and at the rate they cropp'd out yesterday the harvest will be large.

Four cases were booked during the day, but the interesting feature is the case against a girl who is charged with violating the prohibition law.

Palmer asserts that Heard had no control over the building.

For an Old Board Bill.

J. W. Carey, a young white man, was arrested yesterday by Patrolman McWilliams and was booked for cheating and swindling. Carey's arrest was made upon a warrant sworn out by Tom Lawrence, who ran a restaurant on Whitehall three or four years ago. In 1884 Carey boarded with Lawrence, and when in debt to the extent of sixteen dollars left. Lawrence had been unable to recover the money, and a few days ago swore out the warrant charging Carey with cheating and swindling. Carey was locked up.

Lam Head, a suspect, was arrested by Patrolman Moss and Lynch yesterday.

Walter Land was given a call again yesterday. He is booked for larceny this time.

Lucy Jackson will appear in police court to answer the charge of drunk and disorderly.

Patrolman Abbott killed a dog yesterday morning on Fair street which is supposed to have been mad.

Alonzo Cooper, who escaped from the county gaol several weeks ago, was arrested last night by Captain Manly and Mounted Officer Thompson.

Bob Dumas and Holmes, the three street car drivers who engaged in the row and fight in police court yesterday morning, were arraigned in police court yesterday morning. Dumas was fined \$5.75, Dumas \$2.75 and Holmes was discharged.

Jim Julian, a small negro boy, amused himself yesterday by throwing rocks into a Chinese laundry owned by Schuhmacher's pharmacy.

Patrolmen Hengle and McGhee arrested the boy and he fought hard for freedom. He was locked up and booked for disorderly conduct and resisting an officer.

SUMMARY:

Martha Duffy's five year old child is lying at her home, on Fillmore street, in a dying condition from the effects of a blow given her yesterday morning.

The blow was given by Clarence Pinckney, a negro boy.

About noon yesterday, the child was brought to the front yard playing. Clarence Pinckney and a negro girl named Harriette Graham, who was the child's nurse, were on the sidewalk. They were playing on the grass, and the child, who was a baby, was walking on the grass. The child fell and crawled on the grass, and the child's head hit the ground. The child was a hard one, and crawled on the grass, and the child's head hit the ground. The child was extremely ugly, and bled profusely. A physician was called in, and after examining and dressing the wound, stated that the child's recovery was very uncertain. Intelligence of the affair was sent to Patrolmen Phillips and Stearns, and the girl was taken to the hospital. Late last night, however, Captain Russell and Patrolman Stroud found them, and they are now behind the bars at police headquarters, where they will be held until the child's condition assumes a certainty.

His WANTS SUPPLIED.

Relief for the Man Who Was Run Over By Chief Joyner.

Yesterday large quantities of provisions were sent to the home of Mr. A. J. Anderson, the man who was run over and defeated by a boy on May 5 to 6.

Mr. Anderson did not want to accept the general contributions of his friend, but was prevailed upon to take the relief.

While Mr. Anderson's wounds are quite painful, nothing serious is feared, and it is hoped that he will soon be able to resume his business.

A Successful Trip.

Deputy Marshal McDonald, yesterday, returned from a trip up the country, having arrested James Ferguson, in White county, on a warrant, and was carried before Commissioner James B. Gaston, Gainesville. The deputy says that owing to the false swearing of Mr. Ferguson, he was not arrested. The deputy had a man issued charging McDonald with perjury, and he was brought to Fulton county jail in default of \$500 bond. In Jackson county, near Hoschton, William and Elijah Moore were caught in an illicit distillery. They were carried before Commissioner Gaston and committed to jail. The deputy was fully disposed of by locking them both up until the charges could be carefully investigated.

They all Got Into Trouble.

Georgia Wright, a saffron hued damsel of eighteen, called at police headquarters yesterday and exhibiting a scar or two, stated that Emma Cross and her mother, two negro women, had given her a terrible beating which caused the scars.
